

I listen to K-Love when I am at work and it is so very important to have spiritual words around me everyday. In our stressful jobs the music and words are very soothing. I think I carry the calmness around me and I also think of God constantly through the day and thank him for everything he has given us and also pray more through the day. I do not get this station on any radio's at my house but through the computer I can. I think there should be more stations like this. Please do not unplug this station. The inspiration we receive is such a gift in itself. I will say a special prayer that we can keep this station. Thank you and God Bless for listening.

Sincerely,
K-Love Devotional Listner
